A Measure of Merit

Norway Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Norway is not the testimony of strangers. But the endorsement of Norway people.

That's the kind of proof given here—The statement of a Norway citizen.

O. I. Pitts, blacksmith, Main St., Norway, Me., says:—I was attacked with kidney trouble several years ago, caused by a cold settling in my kidneys.

I suffered from pain across my back and sides and I also had difficulty with the kidney secretions. Hearing Doan's Kidney Pills highly recommended, I purchased a box at Stone's Drug Store and began using them. They cured me, and for that reason I do not hesitate to recommend them.

The above statement was given July 24, 1908 and on July 11, 1911 Mr. Pitts said:—(Since Doan's Kidney Pills cured me three years ago I have had little or no trouble from my kidneys. I recommend this remedy whenever I have an opportunity.)

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

BRANT POND.

Tuesday afternoon about three o'clock the town was startled by the blowing of the spool mill whistle which called out the fire department and other citizens in a hurry. The fire proved to be a forest fire on J. M. Day's land which had caught from a brush fire and was making headway up the mountain. The men of the village had to put in some hard work but were fortunate to check it before much damage was done.

Early Saturday morning the alarm of fire was given which called the company to North Woodstock. This time it was the spool mill owned by Herman E. Billings and was totally destroyed. The Brant Pond company was on hand as soon as possible, having a run of two miles to make. The company was too late to save the mill but aided in saving other property. The loss was quite heavy above the insurance which was \$1000.

The engine got there in time to save most of the lumber and surrounding property. This was the only mill at North Woodstock and it now leaves the town with only one saw mill, that of G. L. Cushman's at his farm.

George W. Wilbur, a well known resident, died at his home in Harrison on Sunday, April 28, after a long and distressing illness.

He was the son of Daniel and Harriet For Wilbur, born at Bethel in 1845. In 1863 he enlisted in the 4th Maine regiment, serving his country until the battle of Petersburg he was seriously wounded, rendering him unfit for further service.

In June, 1865, he received his discharge, and notwithstanding he labored under great disadvantage from the effect of his wounds, he was ever an industrious citizen, methodical and painstaking in whatever work he engaged in.

He was a member for 25 years of the Harrison I. O. O. F., the order attending the burial service in a body. He was a kind, generous hearted neighbor and he will be missed by a large circle of friends.

He is survived by a wife who patiently and tenderly cared for him through his long sickness; also four daughters and two sons, Mrs. Lena Niles of Sabattus, Mrs. Alice Southworth, Harrison, Mrs. Edith Dannels and Winfield Wilbur, Portland; Mrs. Lizzie Getchell, and land Wilbur, Lewiston. An only sister, Mrs. Frank Stone, resides in Poland.

Mr. Wilbur's religious preference was Free Will Baptist. Mrs. Gertrude Coye, resident pastor of that church, spoke words of comfort to the bereaved wife and children with an inspiring message so to live that they may be reunited on the other shore.

By Mr. Wilbur's request the choir rendered his favorite hymns, Lead Kindly Light, and Pass Me Not. The funeral services were many and beautiful, showing the tender affection of his children who were able to visit and assist in caring for him during his sickness.

Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble.

When writing for this free sample, please read this generous offer in this paper and send your address to Dr. Kilmer & Co., Home of Swamp-Root, Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

NORWAY AND VICINITY

Norway Lake Wayside Improvement.

Sometime in the fall of 1905 it was suggested that road-side improvement should be made on the Lake road. That a better view could be had of the beautiful Penesseewassee by those passing over the road if the bushes and brush be cleaned up and cedars trimmed. Highway money could not be used for such a purpose and a voluntary subscription was started by this paper.

F. W. Sanborn was the self appointed agent and treasurer and the money sent in has been expended by him with suggestions of others interested.

We append a statement giving names of contributors and money paid out.

It will be seen by the above that it takes from five to eight dollars per year for sheering, picking up brush and mowing. This expense will be perpetual if it be kept as it should be.

Painting the guard rail was once suggested but the advisory committee could not agree on the color to be used and V. W. Akers, the landscape artist and portrait painter, explained that notion in an article in this paper.

We suggested setting out elm trees and Mrs. Andy McDonald, a Norway born woman, registered a sensible protest and that has been side-tracked.

The advisory committee have given permission for the setting out of several hundred trees and this work is to be done this spring.

Thus it will be seen the present debt of \$4.20 and more money is needed for this year's work.

Who will contribute?
Send money to this office and it will be acknowledged and carefully expended.

Spring is again with us and the May basket season is on. There is great activity among the young people and children. Any time in the evening till late in the night bands of young children are racing and running on our streets, shouting and whooping as wild Indians are supposed to whoop. Burrah for the May basket!

In loving memory of the good woman, whose life made everyone happy, as she herself would do, we wish to extend to her neighbors and friends our sincere thanks for the kindnesses rendered, and for the beautiful flowers which she sent us all, although she could not see them, she was a dear and delightful friend for whom we ever had the greatest love and respect. We simply sign our names, in evidence of her love for you, and our own acknowledgment of everyone's kindness.

LOUIS L. BARTLETT AND FAMILY.

CARD OF THANKS.

The passing of Mrs. Lucius L. Bartlett, wife of Mr. Bartlett, died April 23, 1912, was removed from earth, a true gentleman.

Born in Norway, Jan. 10, 1843, the daughter of Eben and Syreeta Shackley. Her marriage to Lucius L. Bartlett on the 5th of September, 1869, united two of Norway's pioneer families, both being active in the progress and development, as well as the moral upbuilding of the town.

After marriage she dwelt forty years in the house where she passed away. A house made glorious by a woman of God's handiwork, made to adorn woman's highest sphere.

Her home life was beautiful beyond description for she made her home a shrine of witely and of motherly devotion and love. In all charity she was open handed, giving to all of her bounty, time and strength, fully and freely; yet holding it only as done in Christ's way.

With a dear and loving heart, she held the highest ideals of what a Christian should be.

To her husband, giving all; to her children, the best of mother, in loving and wise counsel and fellowship, which was extended to her grand children, the same loving care and interest; for her friends, a heart filled full of honest, sincere well wishing, interest and helpfulness; to the unfortunate, charity unstinted in word and deed.

To mourn her loss, a husband, one son, three grand children and everyone else who knew her, for "To know her was to love her." She lived and died in these words:

"So live, that when the summons comes we shall be ready to meet our God, and where each, shall take his chamber in the silent night."

Thou goest forth, like the quarry slave at night, Scolded to his dungeon; But soothed and sustained by an unfaltering friend, Whose words the dearest of his couch about And lies down to peaceful dreams."

The Up-to-date Cobbler.

E. M. Thomas, the up-to-date cobbler, has recently put in a brand new Progressive Finishing machine. This machine is run by a one horse power electric motor, and 17 different operations can be done on the machine.

There is one long shaft which contains a breasting wheel, edge scouring wheel, two heel scouring rolls, one four-inch scouring roll, bottom leveler, ever-ready edge beel and shank setter, wide burnished, new burnishing roll, yarn brush and two bristle brushes. It is also equipped with the progressive exhaust fan which removes the dust by means of the dust hood.

A short time ago Mr. Thomas installed a new automatic sole stitching machine, which facilitated the work of repairing shoes, and with this new machine Mr. Thomas can get out his work in quick order.

Capt. M. W. Sampson's friends in the vamping room saw the ad in the paper that he was "hard up or broke" and was to sell a power boat, passed around, a subscription paper for his benefit. This is the usual shoe factory custom, when a fellow workman is in distress. Twenty-five subscribers one penny each and forwarded that sum by mail to the captain. Of course it was thankfully received and helps to put him straight out yet he hopes to sell the launch and fully recoupe him financially.

Mr. Yates and Mrs. Rig arrived with the remains on the May ball at Bethel, and proceeded at once from the station to the cemetery, where a brief service was held conducted by Rev. William C. Curtis, pastor of the Congregational church in Bethel.

Paint or Not.

Is a horse worth more or less after feed? Hay and oats are high today; shall I wait today and feed him tomorrow? That's how men do about painting their houses and barns and fences. Paint has been high for several years; and they have waited. Fences high yet; they are still waiting; thousands of them are waiting for paint to fall.

Their property drops a trifle a year and the next job of paint creeps-up, creeps-up, creeps-up; till take more paint for a gallon a year; they don't save a cent, and the property goes on suffering.

PAINT DEVOE

Don't try to figure paint cost (by the price per gallon. Poor paint costs most, more gallons to buy—more gallons to apply.

Devore Paint is more economical than the "cheapest" paint ever mixed, because it takes less gallons and wears longer.

It is the result of years of experience in honest paint making. No tricks in the paint or the making of it—nothing but honest materials; finely ground and mixed by powerful machinery.

That is why one gallon of Devore covers from 600 to 800 square feet and stays there.
